SERVICES

FUNCTIONAL CAPACITY EVALUATION

**Medico legal assessment
and report writing**

**RAF claims, Medical negligence, injury on duty
Expert Witness Testimony**

DUE PROCESSES

We believe that a professional and ethical approach directly implies that due process is always followed, hence our strong commitment to Building a relationship with our client, based on openness, trust and integrity

Determining the specific needs of our client

Analysing these needs and coming to a full understanding of them

Providing cost effective but innovative solutions to these needs

Assisting with the effective and accurate implementation of approved solutions

Monitoring and maintaining the process while ensuring that the necessary adjustments are done should the client's needs change.

Assessments and Rehabilitation

Assessment in Medical Rehabilitation examines the current applications of psychological assessment of adults in the context of physical rehabilitation. The editors begin by presenting a model of rehabilitation assessment that is based on the most current research and literature. They provide an overview of the testing considerations that are unique to individuals with disabilities and of associated special training needs for psychologists who work in this area. They also describe the various patient populations seen in rehabilitation settings and examine the topic of "consumer empowerment" as it pertains to assessment and rehabilitation.
